Reliable product

2 Wire System

Easy installation

Competitively
priced

Hands free monitor

7" TFT flat screen

2 Wire Video Kit

The new surf7 video kit is a competitively priced kit designed for single dwellings and boasting the following features:

- ✓ 2 wires installation
- ✓ Up to 100m maximum distance
- ✓ Hands free colour monitor
- ✓ 7" TFT flat screen - 237 x 125 x 27mm
- ✓ Aluminium panel with integrated rainshield with dimensions of 182 x 95mm
- ✓ Two latch outputs to manage two gates/doors
- ✓ Transformer included

This 2 wire 1 way video kit has a surface mounted door station and a 7" full colour, wall mounted, flat screen monitor. This kit is expandable up to 2 monitors with intercommunication (5 wires between them) and 2 door entry panels.

The monitor has controls for programming the melody, communication with the door panel, intercommunication, lock release (2 outputs) and auto switch on function.

The panel is a slim, surface mounted anodised aluminium panel with a slate grey finish.

This monitor and panel cannot be used in combination with other systems and technologies from Golmar.

Safelink - Specialists in door entry and door access control products.

- We distribute off-the-shelf or customised systems and products for most security needs and supply from an extensive product range.
